**Peoples standard delivery pressure at the meter is 7" W.C. (4oz.).\***

\*Applicant should assume a delivery pressure of 7" W.C. (4oz.) for typical design purposes. Higher delivery pressure may be available for Commercial and Industrial customers dependent on main line pressure in the immediate vicinity of the service location. A Commercial or Industrial applicant requesting delivery pressure greater than 7" W.C. (4oz.) must submit a cut sheet showing required range for each piece of gas equipment. Approval of such request shall be at Peoples' reasonable discretion.

7" W.C. (4oz.) at the meter(s) is sufficient  
 Project requires higher delivery pressure

\*Specify amount requested in **PSI, W.C. or ounces:**
