

## It's Construction Season!

Peoples is working on a 20 year project to improve our pipeline infrastructure. You can visit [Peoples-Gas.com/futurework](https://Peoples-Gas.com/futurework) to see if we will be in your neighborhood.

## You Have A Choice

Did you know that Energy Choice is available to Pennsylvania utility customers?

You do not have to purchase your natural gas from Peoples. The Energy Choice Program provides you the option of purchasing your natural gas from a state approved supplier. Visit [peoples-gas.com/shopforgas](https://peoples-gas.com/shopforgas) for additional details, or visit the Pennsylvania Gas Switch website, [pagasswitch.com](https://pagasswitch.com), for a list of natural gas suppliers and current offers.

# Call 811

## Before You Dig

*It's a Free Call to 811 and It's the Law!*

## EMERGENCY SERVICE

### 1-800-222-5101

Our emergency personnel are on duty to assist you 24 hours a day, 7 days a week. If you smell a natural gas odor, suspect a leak, or there is an explosion or fire, leave the area immediately and then call us at **1-800-222-5101**.

## Ask To See ID

Remember to always ask to see ID when a Peoples service employee visits your home.

In order to give you peace of mind, Peoples requires all of its customer service employees to wear photo identification. If you don't see it when one of our employees comes to your home, ask for it. Our employees will gladly show you their photo ID.

ALL Peoples employees carry an ID card with their name, photo and the Peoples logo. Also, look for a vehicle with the Peoples logo. **Please contact customer service at 1-800-222-5101 with any questions or concerns.**

## PEOPLES EAT, DRINK, HELP PROGRAM

#peoplespaysitforward  
Peoples-gas.com

For every take-out purchased from Sorella's Pizzeria, PEOPLES will donate \$1 to Butterfly Angels.

# EAT. DRINK. HELP.

Did you ever think your cup of coffee would be worth \$1,000? How about a \$1,000 slice of pizza?

The **Peoples Eat, Drink, Help Program** supports neighborhood small businesses, empowers charities, and helps to build stronger communities in our service area. Through the program, we partner with a small business. That business chooses a local charity to receive a donation from Peoples via product sales. So whether it's a donut or a hanging basket, when you make a purchase at one of these local businesses, Peoples makes a donation to a great charity.

If you're a small business or a customer who would like to see a small business from your neighborhood partner with Peoples, then we'd like to hear from you! Email us at **Communications@peoples-gas.com** with the subject "Eat, Drink, Help Program."

If you'd like to support local businesses and charities, take a look at our website to see where our Eat, Drink, Help program is going on in your community!

## Keep Meters Clear

Please remember that your natural gas meter must be accessible to read in case of emergency. Keep a three foot clearance in front of your meter with grass and bushes trimmed back so the dials and safety valve are visible.

**You can keep yourself and our meter readers safe this spring and summer by following these simple guidelines:**

- **Keep bushes** and poisonous plants trimmed back so the dials are visible to read. If we can't get close enough to read the meter, we will estimate your bill.
- **Call 811** to have underground utilities marked before digging.
- **Do not drape** hoses on or tie pets to the meter.
- **Plant trees, shrubs and plants** far enough away for future growth to allow space for routine and/or emergency maintenance work, and to prevent roots from damaging your gas service line.
- **Do not obstruct** the meter or regulator (if applicable) with boxes, vehicles, a deck, or other equipment which would impact the ability to service the meter.
- **Be careful** when mowing or weed-whacking around the meter.
- **Do not attempt** to service or maintain a meter yourself.

**DEFINED:** A cross bore is defined as the intersection of an existing underground utility or underground structure by a second utility installed using trenchless technology. This results in an intersection of the utilities, compromising the integrity of either or both utility or underground structure.

**X Why Looking for Cross Bores is Important:**  
In rare cases, a gas pipeline could cross through a sewer pipe. If a plumber unknowingly strikes a gas line while cutting through a sewer blockage, natural gas could enter the sewer system. We want to prevent this from happening.

**X Why Utility Lines Can Cross Through Sewer Lines:**  
When a new utility line (gas, electric, telephone, or cable television) needs to be installed in an urban area, it's very common for utility providers to dig horizontally underground (called directional boring). Since this installation method does not involve digging a trench, it avoids damage to sidewalks, patios, landscaping, and existing utility lines marked by 811 Call Before You Dig. However, the directional bore may unintentionally penetrate an existing sewer, drain or conduit.

**X Cleaning Out Sewers Could Cause a Hazardous Situation:**  
This can happen when sewer laterals are cleaned using mechanical purging equipment (roter). This equipment has the ability to damage buried utilities. Collapsed sewer walls can also cause the roter equipment to be misdirected outside of the sewer, bringing the equipment dangerously close to other buried utilities. Be safe. If you have a sewer blockage, please ask your plumber to always assume that obstructions could involve a cross bore.

For more information or with any concerns, please contact Peoples at **866-863-6266**, or e-mail us at [damageprevention@peoples-gas.com](mailto:damageprevention@peoples-gas.com). You can also visit [peoples-gas.com/crossbores](http://peoples-gas.com/crossbores) for more information on safety precautions.

## What's That Smell?

Although the natural gas delivery system is extremely safe, leaks do occur on occasion, but they usually can be detected:

**BY SMELL** Because the gas is odorless, a sulfur-based odorant is added to give it a rotten-egg smell that warns of its presence. Be alert for this odorant or any petroleum smell.

**BY SIGHT** Escaping gas affects the nutrients in soil, so discolored soil or dead vegetation near a pipeline may indicate a leak.

**BY SOUND** Natural gas leaks may make a hissing or a high-pitched whistling noise.

If you smell a natural gas odor or suspect a leak, leave the area immediately and call our emergency number, 1-800-222-5101.
