

Natural Gas Pipelines Are Safe

The natural gas pipeline network spans the United States and is one of the safest modes of fuel transportation today. The industry invests millions of dollars each year on research and technology to improve the system.

To keep the network safe, the natural gas pipeline industry complies with a broad regulatory program directed by the United States Department of Transportation's Pipeline Hazardous Material Safety Administration division. These regulations provide safety standards for the design, construction, maintenance, and testing of natural gas pipeline systems.

Pipeline Integrity Management Programs for transmission and distribution pipelines require operators to continually monitor pipeline integrity and perform risk analysis, especially in highly populated areas. Peoples utilizes preventive measures to reduce the risk of pipeline leaks or failures and to ensure the safe delivery of natural gas to homes and businesses in our service area.

Avoid Hazards

What to Do if a Leak is Suspected

WHAT YOU SHOULD NOT DO:

- **DO NOT touch, breathe or make any contact with a leak**
- **DO NOT light a match, turn light switches on or off, use a cell or home phone, or do anything to create a spark**
- **DO NOT attempt to extinguish any fire**
- **DO NOT attempt to operate any valves**
- **DO NOT open your garage door or attempt to start your vehicle**

WHAT YOU SHOULD DO:

- **DO leave the home, building and area of the suspected leak, and get to a safe area**
- **DO call our emergency hotline, which answers 24-hours a day at 1-800-222-5101**
- **DO call 911 to notify police and fire officials**
- **DO warn others to stay out of the area**

EMERGENCY SERVICE

1-800-222-5101

Our emergency personnel are on duty to assist you 24 hours a day, 7 days a week. If you smell a natural gas odor, suspect a leak, or there is an explosion or fire, leave the area immediately and then call us at **1-800-222-5101**.

Ask To See ID

Remember to always ask to see ID when a Peoples service employee visits your home.

In order to give you peace of mind, Peoples requires all of its customer service employees to wear photo identification. If you don't see it when one of our employees comes to your home, ask for it. Our employees will gladly show you their photo ID.

ALL Peoples employees carry an ID card with their name, photo and the Peoples logo. Also, look for a vehicle with the Peoples logo. **Please contact customer service at 1-800-222-5101 with any questions or concerns.**

KEEP YOUR FURNACE HEALTHY

2021 - 2022 INCOME GUIDELINES

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM (LIHEAP)

150% Federal Poverty Level

The **Low Income Home Energy Assistance Program (LIHEAP)** provides grants for customers with limited incomes. LIHEAP is not a loan. It is a government grant applied directly to help pay your Peoples heating bill.

Homeowners and Renters May Qualify When:

Household Size*	Gross Monthly Income	Gross Annual Income
1	\$1,610	\$19,320
2	\$2,178	\$26,130
3	\$2,745	\$32,940
4	\$3,313	\$39,750
5	\$3,880	\$46,560
6	\$4,448	\$53,370
7	\$5,015	\$60,180
8	\$5,583	\$66,990
For Each Add'l Person, Add	\$568	\$6,810

DOLLAR ENERGY FUND (DEF)

200% Federal Poverty Level

Dollar Energy Fund (DEF) provides grants to people with limited incomes who make a good faith payment towards their bills.

Homeowners and Renters May Qualify When:

**All members of household regardless of age*

CUSTOMER ASSISTANCE PROGRAM (CAP)

200% Federal Poverty Level

Peoples Customer Assistance Program (CAP) is an affordable monthly payment plan, based on income, for customers who meet income guidelines. Participants make reasonable payments to maintain gas service and can earn credits to reduce their balance each month.

Homeowners and Renters May Qualify When:

Household Size*	Gross Monthly Income	Gross Annual Income
1	\$2,147	\$25,760
2	\$2,903	\$34,840
3	\$3,660	\$43,920
4	\$4,417	\$53,000
5	\$5,173	\$62,080
6	\$5,930	\$71,160
7	\$6,687	\$80,240
8	\$7,443	\$89,320
For Each Add'l Person, Add	\$757	\$9,080

Household Size*	Gross Monthly Income	Gross Annual Income
1	\$2,147	\$25,760
2	\$2,903	\$34,840
3	\$3,660	\$43,920
4	\$4,417	\$53,000
5	\$5,173	\$62,080
6	\$5,930	\$71,160
7	\$6,687	\$80,240
8	\$7,443	\$89,320
For Each Add'l Person, Add	\$757	\$9,080

Carbon Monoxide and Safety in Your Home

Carbon monoxide (CO) is an odorless, colorless and potentially dangerous gas produced when fuel is burned without enough air for complete combustion. In large amounts, CO can cause headaches, unconsciousness, brain damage and even death.

Possible Symptoms When CO is Present:

- Headaches
- Irregular breathing
- Drowsiness/fatigue
- Overall paleness
- Nausea
- Very red lips and ears

WHAT YOU SHOULD DO RIGHT AWAY:

- Open windows and doors
- Move outside
- Call 911 or your local fire department

Steps You Can Take to Prevent CO:

- Have appliances checked annually by a certified heating contractor.
- Make sure your chimney is clean and free of obstructions.
- Keep air vents for your gas appliances clear.
- Never use a gas oven or stovetop for heating your home.
- Do not use portable charcoal or propane grills indoors.
- Do not run an automobile or gasoline engine in an enclosed space.
- Use properly installed space heaters that are approved by local fire codes.
- Check fireplaces for closed or blocked flues.
- Periodically check range pilots for carbon build up.
- Use a plug-in carbon monoxide monitor.

You Have A Choice

Did you know that Energy Choice is available to Pennsylvania utility customers?

You do not have to purchase your natural gas from Peoples. The Energy Choice Program provides you the option of purchasing your natural gas from a state approved supplier. Visit peoples-gas.com/shopforgas for additional details, or visit the Pennsylvania Gas Switch website, pagasswitch.com, for a list of natural gas suppliers and current offers.

Keep Your Furnace Healthy

Keep your furnace performing at its best with an annual furnace check-up.

Have your furnace and other gas appliances inspected by a qualified professional when cold temperatures arrive.

An inspection helps ensure reliable heat and can prevent potential problems.

Your contractor should:

- Test the thermostat.
- Check the flue.
- Visually inspect the heat exchanger, motor and vents.
- Check the pilot light, unless your furnace features pilotless ignition.
- Lubricate the blower motor.

Also, replace your furnace filters at least three times during each heating season. Keep heat registers and cold-air returns clean and clear of furniture and draperies to help the air flow properly.
