

PEOPLES NATURAL GAS COMPANY LLC

RATES AND RULES GOVERNING THE FURNISHING OF SERVICE TO NATURAL GAS SUPPLIERS

ISSUED: September 26, 2024

EFFECTIVE: September 27, 2024

**By: Michael Huwar
President
375 North Shore Drive
Pittsburgh, PA 15212**

NOTICE

Filed in accordance with Final Commission Order, entered September 12, 2024, in Docket No. R-2023-3044549. This tariff combines Tariff Natural Gas Suppliers – PA PUC No. S-3 for the Peoples Natural Gas Division and the supplier tariff provisions in Tariff Gas – PA PUC No. 8 for the Peoples Gas Division. Upon approval of this Tariff Natural Gas Suppliers – PA PUC No. S-4, all Peoples Natural Gas suppliers (including the former Peoples Natural Gas Division and Peoples Gas Division) will be subject to the rates and rules set forth herein.

List of Changes Made by Tariff	2
Table of Contents	3
Definition of Terms	4
Rates Available Under This Tariff	6
Rules and Regulations	7
Rate P-1	22
Rate NP-1	28
Rate LGA	33
Rate SBS	34

DEFINITION OF TERMS

The following is a list of some of the most commonly used terms in this Tariff. In the event of a conflict between any of the definitions set forth below or those contained in a more specific provision of this Tariff, the definition contained in the more specific provision shall prevail.

Aggregate Daily Consumption Volume - The aggregate quantity of gas estimated by the Company to be consumed by all Customers served by the NGS on any day or the direct end user in an OFO situation under Rule 4 of the Tariff.

Aggregate Monthly Consumption Volume - The aggregate quantity of gas actually consumed by all Customers of Pool Operator's pool over their respective Billing Cycles for the month as determined by the Company through actual or estimated meter readings.

Aggregator - A broker, marketer or producer of natural gas which aggregates locally produced gas, injected directly into the Company's lines, into a pool.

Billing Cycle - The period that occurs between actual or estimated meter readings taken by the Company for billing purposes.

Calendar Month Pool Sendout - The sum of (1) the Aggregate Monthly Consumption Volumes plus (2) Pool-to-Pool Volumes nominated for the month.

Calendar Month Pool Supply - The sum of the Daily Available Volumes during the month as adjusted for any gas received from other Pool Operators during the month and any imbalance sales to or purchases from the Company.

Chapter 56 – The Commission regulations that govern, among other things, metering, billing and collections for residential gas and electricity service.

Commodity Charge – A charge designed to recover the cost of producing or procuring natural gas.

Commodity Service – Service provided by the Company or a natural gas Supplier which involves the purchase of gas commodity by the Customer.

Company – The entity doing business as Peoples Natural Gas Company LLC.

Customer – Any person, partnership, association, corporation, or other entity (i) in whose name a service account is listed, (ii) who occupies or is the Customer for any premises, building, structure, etc. or (iii) is primarily responsible for payment of bills. A Customer includes anyone taking Supplier of Last Resort Service and/or Distribution Service under the Company's Retail Tariff.

Daily Available Volume - The total quantity of gas available to be allocated by the NGS for delivery by the Company to all Customers on any day. This quantity is equal to the total volume of gas actually delivered to the Company for the NGS's account on that day, less an appropriate retainage percentage, plus any adjustments associated with the reconciliation of local gas volumes and/or the reconciliation of monthly volumes as set forth in Rates P-1 and NP-1.

Day – A 24-hour period beginning at 10 a.m. and ending at 10 a.m. or as subsequently defined by natural gas industry standards promulgated by FERC.

Dekatherm (Dth) – 10 therms or 1,000,000 British thermal units ("Btu")

Direct End User – A Customer that receives distribution service from the Company and purchases commodity service from a natural gas Supplier who does not pool supplies under the Company's Rate P-1 or Rate NP-1.

DEFINITION OF TERMS (continued)

Local Gas Aggregation Agreement - The Local Gas Aggregation Agreement between the Company and the NGS.

Mcf – 1,000 cubic feet of gas. This is a measure of gas usage.

Measurement Operating Agreement - The agreement between a producer of natural gas and the Company which sets forth the obligations and responsibilities for owning and operating measurement equipment for designated measuring stations.

Monthly Available Volume - The total quantity of gas available to be allocated by the NGS for delivery by the Company to all Customers for the applicable month. This quantity is equal to the total volume of gas actually delivered to the Company for the NGS's account for the applicable month, less an appropriate retainage percentage, plus any adjustments associated with the reconciliation of local gas volumes.

Natural Gas Supplier (NGS) – An entity that has received a license from the Commission and that sells natural gas to Customers that is delivered through the distribution lines of the Company.

Non-Priority One Pool Operator – A pool operator which aggregates natural gas supplies needed to satisfy the full requirements of one or more Non-Priority One transportation Customers of the Company.

Non-Priority One Pooling Agreement - The Non-Priority-One Pooling Agreement between the Company and the Pool Operator.

Pool Operator – A broker, marketer or producer of natural gas licensed as a gas Supplier by the Pennsylvania Public Utility Commission which has executed a Priority-One or Non-Priority One Pooling Agreement with the Company.

Priority One Pool Operator – A pool operator which aggregates natural gas supplies needed to satisfy the full requirements of Priority One transportation Customers of the Company.

Small Business Customer – A Customer receiving natural gas service for commercial or industrial use whose annual usage is equal to or less than 300 MCF.

Supplier – Shall include, but is not limited to, aggregators, brokers, marketers, natural gas distribution companies, natural gas suppliers or producers.

Supplier of Last Resort – The Company or another entity that provides natural gas supply services to Customers that do not elect another Supplier or choose to be served by the Supplier of last resort, Customers that are refused service from another natural gas supplier, or Customers whose natural gas Supplier fails to deliver the required gas supplies. Currently, the Company is the Supplier of last resort for all Priority-One Customers under the terms of this tariff. Each Customer may only have one Supplier of last resort.

RATES AVAILABLE UNDER THIS TARIFF

Service is made available to NGSs under the rules, regulations, rates and terms contained in this tariff. The following rates are made available to NGSs:

Rate P-1 - Priority One Pooling Service

This rate is available to any broker, marketer or producer of natural gas which aggregates natural gas supplies needed to satisfy the full requirements of Priority One (P-1) transportation Customers of the Company.

Rate NP-1 - Non-Priority One Pooling Service

This rate is available to any broker, marketer or producer of natural gas which aggregates natural gas supplies needed to satisfy the full requirements of Non-Priority One (NP-1) transportation Customers of the Company.

Rate LGA - Local Gas Aggregation Service

This rate is available to any broker, marketer or producer of natural gas which aggregates locally produced gas injected directly into the Company's pipeline system.

Rate SBS – NGS Billing Service

This rate is available to the NGS which receives service under Rate P-1 or Rate NP-1 and elects to have the Company bill Customers for natural gas sold by the NGS.

RULES AND REGULATIONS**1. Sources of Supply**

The Company agrees to receive, for the NGS's account, upstream pipeline transportation volumes, local gas volumes, storage volumes, and Pool-to-Pool Volumes.

In determining the volumes available for delivery to Customers in the applicable month, the Company may retain an appropriate percentage, as set forth in the Company's Retail Tariff, of gas used in Company operations and unaccounted for gas from upstream pipeline transportation volumes and local gas volumes as they are received by the Company. For purposes of determining storage inventory volumes, the retainage percentage shall be applied to volumes at the time the volumes are nominated for injection into storage. Pool-to-Pool Volumes shall be added to the adjusted volumes.

Suppliers will pay for any investment costs and any other agreed-upon fees relating to the delivery of gas into the Company's system. The Company will own and maintain each natural gas connection's tapping tee or pipe and valve.

2. Measurement and Quality of Gas

All gas delivered shall be measured by meter. The term "mcf" as used in the Company's schedule of rates, shall mean 1,000 cubic feet of gas at no more than 8 ounces above an assumed atmospheric pressure of 14.4 pounds at whatever temperature the gas may be during the period of measurement. If gas is supplied from a low-pressure distribution system in which the pressure of the gas is regulated not to exceed 8 ounces, the measurement will be at whatever pressure the gas may be during the period of measurement. If gas is delivered from a high-pressure system, measurement will be corrected to a pressure base of 14.73 psia. If measurement is corrected for temperature, measurement will be corrected to 60°F.

Gas delivered into the Company's system should be free from oil, water, salt, gum, dust, and other foreign substances that might interfere with the marketability of the gas. Unless otherwise agreed to by the Company, the gas delivered shall contain not less than 967 Btu per cubic foot and shall not exceed 1,100 Btu per cubic foot (as determined by calorimeter test @ 60 degrees Fahrenheit and saturated with water vapor). Gas accepted by the Company that contains less than 967 Btu per cubic foot will be enhanced to ensure that gas delivered by the Company to Customers shall meet Commission heating value requirements, and the Company may charge for this.

Unless otherwise agreed to by the Company through separate agreement, gas delivered by a Supplier shall not contain more than:

- (a) Seven (7) pounds of water per million cubic feet on an approved dew point apparatus.
- (b) Four (4) percent by volume total inerts including carbon dioxide, nitrogen, argon, and helium provided that total carbon dioxide content shall not exceed two (2) percent by volume.
- (c) Thirty hundredths (0.3) grains of hydrogen sulfide per 100 cubic feet.
- (d) Ten (10) grains of total sulfur per 100 cubic feet.
- (e) Two tenths (0.2) percent by volume oxygen.
- (f) No more than (5) percent Hydrogen.

The Company may enter into agreements with suppliers whereby the Company will agree to treat gas on behalf of a Supplier in order to meet such gas quality requirements outlined above. Should the Supplier not enter into such an agreement and fail to meet these gas quality requirements, the Company may refuse to accept gas delivered by the Supplier and should a Supplier cause damage to any metering, regulating and/or other equipment or interruption of service, the Supplier shall reimburse the Company for the costs to repair such damage and for any related costs which the Company may incur to restore service to Customers and/or repair facilities, including payments made by the Company to Customers in settlement of claims arising out of interruption of gas service. The Supplier agrees to allow the Company to make necessary gas samples to permit testing of the delivered gas to determine quality of gas delivered by the supplier.

RULES AND REGULATIONS**2. Measurement and Quality of Gas (continued)**

Nonconformance – If the gas offered for delivery by the NGS shall fail at any time to conform to any of the specifications set forth herein, then the Company shall notify the NGS of such deficiency and may at the Company's option refuse to accept delivery pending correction by the NGS. Should any substances not in conformity with the quality standards specified herein enter the Company's facilities and cause damage to gas meters, regulators and/or other equipment, or interruption of service, NGS shall reimburse the Company for the costs to repair such damage and for any related costs which the Company may incur to restore service to, and/or repair facilities, of its Customers, including payments made by the Company to Customers in settlement of claims arising out of interruption of gas service.

3. Critical Day Planning

As events occur that could develop into system emergencies or lead to a threatening of system integrity, the Company may request and/or require NGSs or Customers to take certain actions to protect, maintain, or reestablish the safe operation of the system.

- a. Maintenance Alerts (MA) – A maintenance alert is an announcement of actual or pending events related to various physical connections to the Company's system. These communications shall occur on an as needed basis and shall be communicated via the electronic bulletin board as soon as practical.
- b. Operational Alert (OA) – An operational alert may be called during periods of projected increased or decreased consumer demand for natural gas. An "OA" is a request for specific action on the part of an individual NGS, or all NGSs. The NGSs are expected to respond to "OAs" as soon as practical by giving notice to the Company of their intended action. These communications shall occur on an as needed basis and shall be communicated via the electronic bulletin board and/or through email as soon as practical.
- c. Operational Flow Order (OFO) – An OFO is defined in paragraph 4 of the Supplier Tariff. NGSs are expected to comply with an OFO.
- d. Curtailment – In the event of an emergency curtailment of Customer consumption, the Company will alert the appropriate NGSs, and if appropriate, will coordinate with them responses to media and elected officials.

RULES AND REGULATIONS**4. Operational Flow Orders****a. Issuance of OFOs**

The Company may issue, in its sole discretion, an OFO (Operational Flow Order) in any of the following circumstances: To the extent possible, the Company will provide a 24-hour prior notice of an OFO in situations where a prior indication of the need to issue an OFO exists.

- i. to alleviate conditions that threaten the operational integrity of the Company's system;
- ii. to maintain pressures necessary for the Company's operations;
- iii. to insure adequate flowing supplies are delivered to specific receipt points on the Company's system; or
- iv. to alleviate operational problems arising from overdeliveries or underdeliveries by NGSs or Customers transporting supplies for their own consumption ("Direct End User"), in violation of their agreements or Company tariffs.

b. OFO Procedures

In the event of the issuance of an OFO, NGSs and Direct End Users (or a Supplier that the Direct End User has arranged with and designated to the Company to receive notification of the OFO) will be directed to maintain its supply according to the steps set forth below.

- i. The NGS or the Direct End User must adjust supply nominations, including any Pool-to-Pool Volumes to equal Aggregate Daily Consumption Volume and/or hourly consumption levels if necessary, with gas delivered at the points specified by the Company. The Company shall provide such estimates via the electronic bulletin board and/or through email as soon as practical.
- ii. Upon the NGS or Direct End User request, the Company will consider, if time permits, adjustments to the Aggregate Daily Consumption Volume or the Daily Available Volume to the extent such adjustment, in the Company's discretion, benefits system operations during the OFO event and if such adjustment is confirmable the Company.

RULES AND REGULATIONS**4. Operational Flow Orders (continued)****c. OFO Penalties**

Failure to comply with an OFO may result in the following:

- i. The immediate recall of capacity assigned by the Company to the NGS or a Direct End User, if any, throughout the remainder of the OFO period. Further, in the event the NGS/Direct End User's failure to comply with an OFO contributes to the Company using other Customers' flowing supplies to meet the needs of end-use Customers of the NGS/Direct End User's and/or the Company's Retail Sales Demand, the Company may, at its sole discretion, recall or otherwise withdraw any capacity rights assigned to the NGS/Direct End User upon five (5) days written notice to the NGS/Direct End User (unless already recalled under the provisions of this section).
- ii. The billing of the incremental charges set forth below times the OFO shortfall which is defined as the imbalance between Daily Available Volume and its Aggregate Daily Consumption Volume as calculated by the Company, on those days subject to the OFO.

The OFO incremental charges shall equal:

- (1) the payment of a gas cost equal to the highest incremental cost paid by the Company on the date of noncompliance;
- (2) one month's demand charges and/or otherwise applicable storage and overrun costs. This charge shall not be imposed more frequently than twelve times in any thirty-day period;
- (3) the payment of all other charges incurred by the Company on the date of the OFO shortfall that are associated with the OFO shortfall; and
- (4) in the Company's discretion, an appropriate penalty charge, not to exceed \$15/Mcf.

The penalties set forth herein shall be billed to NGSs serving Customers under Rates P-1 or NP-1, or to Direct End Users (or a Supplier that the Direct End User has arranged with and designated to the Company to receive notification of the OFO).

- iii. In the event the NGS/Direct End User's failure to comply with an OFO contributes to the Company using other Customers' flowing supplies to meet the needs of any Customer and/or the Company's retail sales demand, the Company may terminate the NGS's/Direct End User's rights to operate on the Company's system under the applicable pooling and/or transportation agreements upon ten (10) days written notice to the NGS.

5. Billing and Payment

Each calendar month the Company shall render a statement of account to the NGS summarizing the charges due the Company, including any purchases by the Company.

The NGS shall pay the Company by wire transfer of federal funds unless the NGS and the Company mutually agree upon a method of payment other than wire transfer which will result in timely receipt of payment by the Company.

RULES AND REGULATIONS**5. Billing and Payment (continued)**

Charges previously billed to the NGS by the Company, for which payment has not been received by the Company by the due date, will be assessed a late-payment charge of two percent (2%) per month on the unpaid balance.

If the Company has not received payment from the NGS for any services or charges, including late-payment charges, within fifteen (15) days of the statement date, the Company may deduct this unpaid amount from any payments accruing to the NGS under any agreement between the NGS and the Company or take gas in kind from the NGS in satisfaction of obligations and/or terminate the agreement with the NGS upon ten (10) days written notice to the NGS.

6. Creditworthiness

The Company shall not commence service or continue service to the NGS if the NGS fails to meet the creditworthiness criteria outlined in this Section.

The Company will base its creditworthiness evaluation on the financial information provided in response to the "Financial Information" and "Certificate" sections below.

- a. Financial Information - In consideration of the opportunity to supply gas to the Company's Customers and in order for the Company to accept the NGS as the Supplier of gas to Customers of the Company, the NGS must provide the following financial information, provided, however, that such financial information will not be required by the Company if the NGS has obtained a Natural Gas Supplier License from the Commission within one year prior to the date it submits an application to the Company for approval to become a NGS of gas to Customers of the Company and that such information has been provided to the Company:
 - i. Financial statements, annual report or Form 10-K for the most recent fiscal year-end.
 - ii. Current interim financial statements.
 - iii. Listing of parent company, affiliates and subsidiaries.
 - iv. Any reports from credit reporting and bond rating agencies which are available.
 - v. A bank reference and at least two trade references.
- b. Certificate: The NGS shall deliver a certificate of a duly elected officer or authorized representative certifying the following:
 - i. The NGS is not operating under any chapter of the bankruptcy laws and is not subject to liquidation under any state law.
 - ii. The NGS is not subject to the uncertainty of pending or threatened litigation in state or federal courts or regulatory proceedings which could (1) cause a substantial deterioration in its financial condition, (2) cause a condition of insolvency, or (3) endanger its ability to exist as an ongoing business.
 - iii. The NGS does not have outstanding lawsuits, actions or judgments, which, individually or in the aggregate, could jeopardize its ability to remain solvent.

RULES AND REGULATIONS**6. Creditworthiness (continued)**

- iv. The NGS has the power and authority to transact the business it transacts and proposes to transact, has obtained and holds a Natural Gas Suppliers License from the Commission and is in good standing in each jurisdiction in which such qualification is required by law, other than those jurisdictions as to which failure to be in good standing would not, individually or in the aggregate, reasonably be expected to jeopardize its ability to transact the business it transacts or to remain solvent.
- v. The NGS has no delinquent balances outstanding for billings made previously by the Company or its affiliate, and the NGS must have paid its account in the past according to the established terms and not made deductions or withheld payment for claims not authorized by contract.
- c. The NGS has a continuing obligation to notify the Company in writing, within two business days, of the occurrence of any event which would render the NGS unable to provide the certificate required in paragraph (b) of this "Creditworthiness" section, as of the date such event occurred and within two business days of any other significant deterioration of its financial fitness or creditworthiness, including if the NGS's Credit Rating is downgraded below Ba3 from Moody's or BB- from S&P or Fitch. "Credit Rating" means the rating assigned to the NGS's unsecured, senior long-term debt obligations (not supported by third party security) by Moody's, S&P, or Fitch. The NGS shall also provide the Company a copy of the financial statements as specified in paragraph (a) of this "Creditworthiness" section upon request by the Company.
- d. Evaluation Process to Determine Financial Fitness:

To the extent the Company determines that the NGS's financial condition under paragraph (a) is questionable or the NGS cannot supply the certificate required under paragraph (b) above, the Company will require the establishment of a security enhancement based on the financial exposure imposed on the Company by the NGS for all service fees applicable per the rate schedules governed by this tariff. The amount of the security enhancement shall include the following components and shall be calculated based on the projected peak winter month usage served by the NGS:

- 1. All applicable pooling and aggregation fees;
- 2. All applicable billing fees; and
- 3. Projected imbalance fees using the maximum imbalance price multipliers and assuming that the NGS fails to delivery gas supplies during the peak month.

The Company shall consider the forms of security enhancements as set forth in 52 Pa. Code §§ 62.102 – 62.114. The Company may also consider as a form of security such amounts collected by the Company on behalf of the NGS under Rate SBS of this tariff or such other security as is mutually acceptable to both the Company and the NGS. The Company reserves the right to determine which of these financial instruments shall be established as a security enhancement.

All information submitted or provided to the Company will remain confidential and be used solely for the purpose of evaluating the financial fitness or creditworthiness of the NGS. The amount of the security enhancement may be reviewed and modified based on the criteria established at 52 Pa. Code §§ 62.102 – 62.114.

RULES AND REGULATIONS**7. Bonding Requirement**

In addition to any creditworthiness requirements as set forth in Rule 6, the Company may also require that the NGS post a performance bond or any other security suitable to the Company, to cover any costs associated with the NGS prematurely discontinuing service to Customers or the NGS default of payments of Commission imposed financial penalties and restitution to Customers. The amount of the performance bond or other security shall be equal to \$2 times the volumes the NGS is expected to serve during the month of January. The level of the bond shall be recalculated annually.

The bonding requirement will be waived for that portion of the NGS's load used to serve Non-Priority One Customers whose annual consumption is 300 Mcf or more, but in such circumstance, the Company shall not be responsible to provide those Customers service as Supplier of last resort and the Company shall have none of the obligations arising under Section 2207(a) and (k) of the Public Utility Code. The Company may waive the bonding requirement related to delivery failure for the NGS that demonstrates to the Company's satisfaction that it will assign the gas supply contract to the Company in the event of a default. With regard to the latter, the Company, in its sole discretion, which shall not be unreasonably exercised, may waive the bonding requirement related to delivery failure if the NGS assigns its gas supply contracts acquired for purposes of serving its Customers on the Company's system (and if applicable, any related financial risk management contracts) to the Company in the event the NGS prematurely discontinues service to its Customers. Such waiver shall be subject to the following conditions:

- a. The NGS's Supplier agrees to assign applicable gas supply to the Company.
- b. The Company is satisfied with the relevant contract assignment language and applicable reasonable terms and conditions.
- c. The Company is satisfied with the NGS's Supplier's credentials or the security of supply.
- d. The NGS agrees to reimburse the Company for any losses the Company suffers as a result of agreeing to the assignment of contracts, including, but not limited to, losses from a differential in the assigned gas prices and the NGS's contracted price with its Customers and losses resulting from the NGS's Supplier refusing to assign the relevant gas supply.

8. Procedures when a NGS Exits the System

Prior to exiting the Company's system the NGS shall provide the Company with two months prior notice. Upon the NGS's exit from the Company's system, the Company will serve the NGS's former Customers at the Company's Supplier of last resort rates, or at the agreed-to NGS price for the remainder of the billing cycle if the NGS discontinues service prior to the beginning of the next billing cycle. Any differences between the cost incurred by the Company and the NGS's price shall be recovered from the NGS. Any capacity or supplies previously assigned to the NGS will revert to the Company, including gas held in storage. If the NGS had used capacity not assigned by the Company to bring gas on to the Company's system, then the NGS agrees to offer to assign said capacity, including gas held in storage, to the Company, which the Company may, at its sole discretion, accept or reject.

Balancing for NP-1 and P-1 pools of both interstate and local supplies for the exiting NGS's final month of service shall be performed in accordance with the Balancing provisions under Rate NP-1. No imbalance price multipliers will be applied.

RULES AND REGULATIONS**9. Dispute Resolution Process**

The Company and each NGS will designate specific personnel for responding to complaints and disputes under this process.

The Company and the NGS shall use good faith and commercially reasonable efforts to informally and timely resolve all disputes that may develop between them. Failing such informal resolution, either party may initiate this Dispute Resolution Process by presenting a written Notice of Dispute that includes the names of the Parties and Customer(s), if any, involved and a brief description of the matters in dispute.

Within five (5) days of the Company's and/or the NGS's receipt of a Notice of Dispute, a designated senior representative of each of the Parties shall attempt to resolve the dispute on an informal basis.

In the event the designated representatives are unable to resolve the dispute by mutual agreement within thirty (30) days of said referral, the dispute shall be referred for mediation through the Commission's Office of Administrative Law Judge. A party may request mediation prior to that time if it appears that informal resolution is not productive.

If mediation is not successful, then the matter shall be converted to a formal proceeding before a Commission Administrative Law Judge.

Any party may file a complaint concerning the dispute with the Commission under relevant provisions of the Public Utility Code.

10. Standards of Conduct

- a. The Company shall apply its tariffs in a nondiscriminatory manner to its affiliated NGS and any nonaffiliated NGS.
- b. The Company shall not apply a tariff provision in any manner that would give its affiliated NGS an unreasonable preference over other NGSs with regard to matters such as scheduling, balancing, transportation, storage, curtailment, capacity release and assignment, or nondelivery, and all other services provided to its affiliated NGS.
- c. Mandatory tariff provisions shall not be waived by the Company for any NGS absent prior approval of the Commission.
- d. If a tariff provision is not mandatory or provides for waivers, the Company shall grant the waivers without preference to its affiliated NGS or non-affiliated NGS.
- e. The Company shall maintain a chronological log of tariff provisions for which it has granted waivers. Entries shall include the name of the party receiving the waiver, the date and time of the request, the specific tariff provision waived and the reason for the waiver. The chronological log shall be open for public inspection during normal business hours and the Company shall post the log on its website for a period of at least three (3) months.
- f. The Company shall process requests for distribution services promptly and in a nondiscriminatory fashion with respect to other requests received in the same or a similar period. The Company shall maintain a chronological log showing the processing of requests for transportation services. The chronological log shall be open for public inspection during normal business hours.

RULES AND REGULATIONS**10. Standards of Conduct (continued)**

- g. If the Company provides a distribution service discount, fee waiver or rebate to its favored Customers, or to the favored Customers of its affiliated NGS, the Company shall offer the same distribution service discount, fee waiver or rebate to other similarly situated Customers. Offers shall not be tied to any unrelated service, or incentive or offer on behalf of either the natural gas distribution company or its affiliated NGS. A chronological log shall be maintained showing the date, party, time and rationale for the action. The chronological log shall be open for public inspection during normal business hours.
- h. Subject to Customer privacy or confidentiality constraints, the Company shall not disclose, directly or indirectly, any Customer proprietary information to its affiliated NGS unless authorized by the Customer. To the extent that the Company does disclose Customer information without Customer authorization, it shall first seek the permission of the Customer consistent with the Company's tariff, any contractual obligations with the Customer and Section 62.78 of the Pennsylvania Code, and if the Customer grants permission, the Company shall contemporaneously provide this same information to other similarly situated NGSs in a similar fashion so as not to selectively disclose, delay disclosure, or give itself or its affiliated NGS any advantage related to the disclosure. A chronological log shall be maintained showing the date, time and rationale for the disclosure. The chronological log shall be open for public inspection during normal business hours. This provision does not apply to the disclosure of Customer information made under a Customer assistance program mandated by state law or regulation.
- i. The Company shall justly and reasonably allocate to its affiliated NGS the costs or expenses for general administration or support services provided to its affiliated NGS.
- j. The Company shall not condition or tie the provision of any product, service or price agreement by the Company (including release of interstate pipeline capacity) to the provision of any product or service by its affiliated NGS.
- k. The Company shall not give its affiliated NGS preference over a nonaffiliated NGS in the provision of goods and services including processing requests for information, complaints and responses to service interruptions. The Company shall provide comparable treatment in its provision of such goods and services without regard to a Customer's chosen NGS.
- l. The Company and its affiliated NGS shall maintain separate books and records. Further, transactions between the Company and its affiliated NGS shall not involve cross-subsidies. Any shared facilities shall be fully and transparently allocated between the Company function and the affiliated NGS function. The Company accounts and records shall be maintained such that the costs incurred on behalf of an affiliated NGS may be clearly identified.
- m. The Company employees who have responsibility for operating the distribution system, including natural gas delivery or billing and metering, as well as those responsible for marking and Customer service, shall not be shared with an affiliated NGS, and their offices shall be physically separated from the office(s) used by those working for the affiliated NGS. Such Company employees may transfer to an affiliated NGS provided such transfer is not used as a means to circumvent these interim standards of conduct.

RULES AND REGULATIONS**10. Standards of Conduct (continued)**

- n. Neither the Company nor its affiliated NGS shall directly or by implication, falsely and unfairly represent to any Customer, the NGS or third party that an advantage may accrue to any party through use of the Company's affiliates or subsidiary, such as:
 - i. That the Commission regulated services provided by the Company are of a superior quality when services are purchased from its affiliated NGS;
 - ii. That the merchant services (for natural gas) are being provided by the Company when they are in fact being provided by an affiliated NGS;
 - iii. That the natural gas purchased from a nonaffiliated NGS may not be reliably delivered; or
 - iv. That natural gas must be purchased from an affiliated NGS to receive Commission regulated services.
- o. When affiliated NGSs market or communicate to the public using the Company's name or logo, it shall include a legible disclaimer that states:
 - i. That the affiliated NGS is not the same company as the Company;
 - ii. That the prices of the affiliated NGS are not regulated by the Commission; and
 - iii. That a Customer does not have to buy natural gas or other products from the affiliated NGS in order to receive the same quality service from the Company.

When an affiliated NGS advertises or communicates verbally through radio or television to the public using the Company name or log, the affiliated NGS shall include at the conclusion of any such communication a legible disclaimer that includes all of the disclaimers listed in this paragraph.

- p. Except in competitive bid situations, the Company shall not (a) jointly market or jointly package its Commission regulated services with the services of an affiliated NGS or (b) offer or provide to its affiliated NGS products or services, including bill inserts in its Company bills promoting an affiliated NGS's services or a link from the Company's web site, unless the Company offers or provides the products or service to all nonaffiliated NGSs on the same terms and conditions.
- q. The Company shall not offer to sell natural gas commodity or capacity to its affiliated NGS without simultaneously posting the offering electronically on a source generally available to the market or otherwise making a sufficient offer to the market. The Company shall maintain a chronological log of these public disseminations. The chronological log shall be open for public inspection during normal business hours.
- r. The Company shall utilize, unless otherwise agreed to by the affected parties, the following complaint and dispute resolution procedure for dealing with any alleged violations of any of the standards of conduct, with the exception of paragraph (r)(i), which are exclusively under the purview of the Commission:

RULES AND REGULATIONS**10. Standards of Conduct (continued)**

- i. In the event a NGS alleges a violation of any of these Standards of Conduct provisions, the NGS must provide the Company with a written Notice of Dispute that includes the names of the Parties and Customer(s), if any, involved and a brief description of the matters in dispute. The dispute procedures in Section 9 shall apply to any Notice of Dispute issued per Section 10(i). A complainant bears the burden of proof consistent with 66 Pa. C.S. Section 332 (relating to Public Utility Code) in regard to the allegations, and the Commission may impose penalties for such violations pursuant to 66 Pa. C.S. Section 3301.
- s. The Company shall keep a chronological log of any complaints, excepting paragraph (r)(i), regarding discriminatory treatment of NGS. This chronological log shall include the date and nature of the complaint and the resolution of the complaint. The chronological log shall be open for inspection during normal business hours.

11. Nomination Procedures**a. General Procedures**

- i. All Transportation Volumes received for NGS's pool account at upstream pipeline transportation receipt points, local production volumes received for NGS's or Aggregator's account at local production receipt points and Pool-to-Pool transfer volumes shall be nominated to the Company in advance according to the procedures outlined in this section.
- ii. Nominations are to be transmitted to the Company via the Company's Electronic Nominations System and are to be received by the Company by the dates and times specified on the Company's Electronic Nomination System.

b. Nomination of Upstream Pipeline Volumes

- i. Upstream pipeline nominations must conform, in content and format, with Company specifications for transportation volume nominations, which shall include, at a minimum: NGS's contract number; upstream pipeline contract number; and requested daily transportation volume.

RULES AND REGULATIONS**b. Nomination of Upstream Pipeline Volumes (cont.)**

- ii. The Company will either confirm, in total or in part, or reject NGS's transportation volume nomination based on the Company's operating conditions, the limits and requirements of the Company's system and facilities, previously confirmed nominations and timely confirmation by upstream pipelines. Accepted transportation volumes will be posted on Company's Electronic Nomination System. In order to support system operations, maintain system integrity, and minimize positive or negative imbalance volumes, the Company may request NGS to nominate and deliver transportation volumes to designated transportation receipt points. Such request shall be posted in advance on Company's Electronic Nomination System or through direct communication with the NGS. If, in Company's sole discretion, voluntary compliance by NGS fails to correct operational deficiencies, the Company may exercise its authority under Rule 4 of the Rules and Regulations to issue NGS specific and/or system wide OFOs.
- iii. Confirmed nominations will become effective on the date specified in the NGS's nomination and will remain in force until the last day of the current calendar month, subject to continued receipt by the Company from upstream pipeline of the confirmed volume, unless superseded by a subsequent transportation volume nomination or limited by operational conditions as mentioned above.
- iv. Nominations made in accordance with this Section do not relieve NGS of the obligation to submit corresponding nominations for service with an upstream pipeline.

c. Nomination and Reconciliation of Local Production Volumes

- i. No later than five days prior to the end of each month, the Company will set a Gross Production Projection (GPP) nomination for the following month for the metering stations identified in the agreement or other point of interconnection into the Company's System. The initial GPP nomination shall be based on recent available production data but may be subject to adjustment by the Company to reflect known and anticipated production changes provided (within 2 days) by the NGS or Local Gas Aggregator and confirmed by the Company. The confirmed GPP volume shall be used for reconciling local gas nominations and actual production.
- ii. The NGS or Local Gas Aggregator may request to change its GPP nomination during the month in accordance with the Company's Operating Rules for Local Gas Aggregation Service. The Company may, at its discretion, ask for additional justification for any nomination, which may result in an adjustment to the nomination.
- iii. Confirmed GPP nominations will be credited to the NGS's or Local Gas Aggregator's account on the date specified in the GPP nomination. When actual local gas aggregation volumes delivered into the Company's system are known, any discrepancies between actual and GPP nominations will be reconciled, in the first full calendar month following the determination of actual local gas aggregation volumes (the "Adjustment Month").
- iv. The volumetric discrepancy between the actual local gas aggregation volumes and the local gas aggregation nominations will be reconciled in the Adjustment Month by adjusting the NGS's or Local Gas Aggregator's monthly available volume or by other methods as made available by the Company, including, but not limited to, selling or purchasing additional supplies, transferring gas in storage, or pool-to-pool transfer.
- v. In the event that a pool ceases its existence and due to this, a negative imbalance results, the pool will be cashed out at the first of the month IFERC DTI Appalachia Index.
- vi. Unless otherwise agreed upon by the Company, monthly volumes delivered out of the pool must be baseloaded proportionately with regard to the number of days in the month.

RULES AND REGULATIONS**d. Nomination of Pool-to-Pool Volumes**

- i. Nominations must conform, in content and format, with the Company's specifications for Pool-to-Pool Volume nominations, as specified in the Company's Electronic Nominations System.
- ii. Such transfers may be used to resolve current daily imbalances created by the NGS's inability to match Daily Available volumes with the projected Aggregate Daily Consumption Volume and shall not be used to resolve daily imbalances occurring for any prior day or days.
- iii. Subject to the limits of the Company's operating conditions and facilities, and the reasonableness of the NGS's nomination as determined solely by the Company, the Company will either confirm, in total or in part, or reject the NGS's Pool-to-Pool Volume nomination.

e. Nomination of Assigned Pennsylvania-Produced Supplies

- i. All Pennsylvania-produced supplies assigned or sold to the NGS for a given month will be divided by the number of days of that month and automatically credited to the pool operator's Daily Available Volumes.

12. Confirmation of Customer Enrollment

When the Company receives notice that a Customer has elected to switch NGSs or return to the Company's Supplier of Last Resort service, the Company shall initiate the confirmation procedure described herein. Such changes shall coincide with the start of Customer's next billing cycle.

- a. The NGS must maintain either a mainframe computer or a personal computer that meets the processing capabilities required by the Company.
- b. The NGS shall notify the Company of new or deleted Customers via e-mail file in approved spreadsheet format. The NGS should notify the Company only of additions or deletions to its Customer list; existing Customers shall not be included.

RULES AND REGULATIONS**12. Confirmation of Customer Enrollment (continued)**

- c. Notification from the NGS of a new or deleted Customer shall consist of the following information: Customer name, Service Address, the Company Account Number, Date and Time of file preparation, the NGS's assigned Pool Code (rather than the NGS name) and the NGS's assigned Rate Numbers, if the Company is billing on behalf of the NGS.
- d. The NGS may submit additions, changes or deletions from its Customer list to the Company on a daily basis. Such additions, changes or deletions from the Customer list will become effective for the service period reflected in the second bill issued following the date such additions, changes or deletions are submitted to the Company.
- e. The Company shall notify the NGS with a report via the Internet if a new Customer is not processed. The circumstances in which a Customer will not be processed may include, but are not limited to, the information provided by the NGS does not match the Company's required data elements, the Customer submitted by the NGS is not eligible for the requested service, and the Customer is no longer receiving service from the Company. Such report will be issued on the Company's web site following processing and will include the reason the Customer has not been processed.
- f. Once a prospective Customer's request has been processed, the Company shall mail out a confirmation letter to each Customer by the end of the next business day after the date the Company receives notification from the NGS that the Customer has elected to switch NGSs or return to the Company's Supplier of last resort service, asking the Customer to notify the Company if information in the confirmation letter is inaccurate. Such confirmation letter shall include, if appropriate, the Customer's pool operator choice as stated by the NGS, the applicable billing option, the approximate date when transportation service is to begin and the date that the first bill will be mailed.
- g. Should the Company receive notification from a Customer within the five (5) calendar days required under the confirmation letter that the Customer's gas service or gas supply election as described by the NGS is in error, the Company shall so notify the NGS. In case of notification by Customer of such error, the Company shall continue billing the Customer under the Customer's current billing arrangement. Should the Company receive notification from the Customer that the Customer's gas service or gas supply election as described by the NGS is in error, but not receive such notification within the five (5) calendar days period, the Company shall advise the Customer to contact the NGS to request cancellation, and if requested by the Customer, the Company will treat this as an alleged slamming complaint.
- h. On or about the eighteenth (18th) of the month, the Company will post on its web site, a list of Customers for the forthcoming month. Additions and removals from the NGS will also be reported on a daily basis in an activity file.
- i. Should the Company receive notification by more than one NGS within a one-month period that the Customer has elected said NGS to supply Customer's natural gas, the Company shall proceed with the confirmation process using the first NGS which notifies the Company, unless the Customer informs the Company otherwise.
- j. The Company will issue, at a minimum, a monthly report of Customers who have discontinued service with the NGS via Internet, which shall include discontinuances initiated by the incumbent NGS, the Customer or Customer's new NGS.

RULES AND REGULATIONS**13. Customer Service, Information Requirements and Slamming Complaints**

- a. NGSs shall refer to the Commission's Guidelines for Maintaining Customer Services at the Same Level of Quality Pursuant to 66 Pa. C.S. §2206 (a), Assuring Conformance with 52 Pa. Code Chapter 56 Pursuant to 66 Pa. C.S. §§2207 (b), 2208 (e) and (f) and Addressing the Application of Partial Payments at Docket No. M-00991249F0003, for requirements relating to credit determination, deposits, initiation and disconnection of service.
- b. NGSs shall refer to the Commission's Customer Information Disclosure Guidelines at Docket No. M-00991249F0005, for requirements relating to disclosure of terms of service, marketing, advertising and sales practices, and privacy of Customer information.
- c. NGSs shall refer to the Commission's Guidelines to Ensure Customer Consent to a Change of Natural Gas Suppliers at Docket No. M-00991249F0006, for requirements on handling Customer slamming complaints.

14. Customer Contact

The NGS must maintain a twenty-four (24) hour answering service or a telephone answering machine which informs all callers that if they smell gas or there is any other emergency regarding gas service, the callers should call their gas utility immediately.

If the NGS receives a telephone call from a Customer which should be directed to the Company, the NGS shall direct the Customer to the appropriate contact within the Company.

The NGS shall handle all calls regarding commodity charges and associated rates.

NGSs must coordinate with the Company in resolving Customer inquiries or complaints which involve services provided by both the Company and NGSs.

15. Miscellaneous

- a. The NGS shall be deemed to be in control and possession of the gas transported to Company until the gas has been delivered to Company at the agreed-upon delivery point.
- b. The NGS warrants the title of the gas delivered to Company and shall indemnify the Company for and save Company harmless from all suits, actions, debts, accounts, damages, costs, losses and expenses arising from or attributable to the adverse claims of any and all other persons or parties to the gas delivered to Company.
- c. The NGS shall be subject to the Liability provisions contained in Company's Retail Gas Tariff.

RATE P-1

PRIORITY ONE POOLING SERVICE**AVAILABILITY**

Unless otherwise agreed to by the Company, an NGS that operates a P-1 and a NP-1 pool must serve its P-1 Customers from its P-1 pool and serve its NP-1 Customers from its NP-1 pool. Service under this rate schedule is available to any Priority One Pool Operator who has entered into a Priority One Pooling Agreement with the Company and demonstrates to the Company's satisfaction that it has met the Company's creditworthiness standards and bonding requirements. Customers must assign their rights provided under the applicable transportation rate schedules to said Pool Operators.

RULES AND CONDITIONS**1. Assignment of Capacity****Pool Operators with Peak Day Demand < 2,000 Dth per Day**

Pool Operators who take service under this rate schedule and have a peak day demand of 2,000 Dth per day or less may choose to decline their pro-rata share of the pipeline and storage capacity. In lieu of such capacity assignment, the Company will deliver the Pool Operator's required daily gas supplies. The Company will bill the Pool Operator monthly at the first of the month IFERC DTI Appalachia Index plus associated delivery charges. Pool operators may change their election to accept or decline capacity each April.

Pool Operators with Peak Day Demand > 2,000 Dth per Day

Pool Operators who take service under this rate schedule must take assignment of a pro-rata or other agreed upon share of the pipeline and storage capacity and Pennsylvania produced gas supplies ("assigned capacity") that would otherwise be utilized by the Company to meet the Customer's commodity service requirements. Assigned capacity shall be subject to recall to the extent that the Pool Operator is unable to deliver necessary gas supplies, in which case the Company will provide for the delivery of necessary gas supplies pursuant to the terms of the standby rate schedule. More specific terms with respect to capacity assignment requirements are set forth in the following sections. However, such additional terms with respect to capacity assignment requirements shall be subject to review in the Company's annual Section 1307(f) proceeding.

Assignment of Pennsylvania –Produced Supplies

Pennsylvania gas produced from wells under gas purchase contracts for sale to the Company and for ultimate delivery into the Company's system may be assigned or sold to the NGS as agent for the Customer of the NGS's Priority-One Pool. The assignment shall be structured at a monthly weighted average purchase cost of the assigned Pennsylvania-produced supplies. Such purchased gas cost shall include any volumetric delivery and fuel charges incurred by the Company for local production volumes delivered to the Company via interstate pipelines. The term of the assignment shall be from the first month in which the NGS renders commodity service to the Customer until the NGS's supply agreement with Customer expires, or as otherwise provided herein.

Assigned Pennsylvania-produced supplies shall be recallable by the Company only under the following circumstances:

- (1) the Customer on whose behalf the supplies have been assigned is no longer served by the NGS; or
- (2) the NGS has failed to comply with terms and conditions set forth herein.

Assignment of Upstream Pipeline Capacity

This section applies to the Company's upstream pipeline capacity on Eastern Gas Transmission and Storage ("EGTS"), Texas Eastern ("TETCO"), Equitrans, and any other pipelines on which the Company may contract for capacity from time to time, excluding National Fuel Gas Supply Corporation.

RATE P-1
PRIORITY ONE POOLING SERVICE

1. Assignment of Capacity (continued)

Consistent with FERC rules and regulations for capacity releases under state retail choice programs, upstream pipeline firm transportation capacity held by the Company shall be assigned to the NGS as agent for the Customers of the NGS's Priority-One Pool. The assignment shall be structured as a zero cost release of capacity provided, however, that the NGS should be responsible for paying all usage based pipeline charges. The term of the release shall be on a monthly basis, commencing with the first month in which the NGS rendered commodity service to the Customer to the earlier of the end of the seasonal period (Winter releases shall terminate March 31 and summer releases shall terminate October 31) or the termination date of the contract(s) between the Company and the upstream pipeline or the last month in which the NGS renders commodity service to the Customer on whose behalf the capacity had been assigned; provided however, the Company may in its discretion release such capacity on a monthly basis. The NGS must comply with all upstream pipeline requirements to become an eligible shipper on the upstream pipeline system. The NGS is responsible for paying all upstream pipeline variable charges incurred on the upstream pipeline.

The firm transportation capacity released pursuant to the previous section shall be recallable by the Company only under the following circumstances:

- a. the Customer on whose behalf the capacity has been assigned is no longer served by the NGS; or
- b. the NGS has failed to comply with the terms and conditions set forth herein.

Consistent with FERC rules and regulations for capacity releases under state retail choice programs, upstream pipeline storage capacity held by the Company shall be assigned to the NGS as agent for the Customers of the NGS's Priority-One Pool. The assignment shall be structured as a release of capacity at zero cost and may be subject to conditions of release (including, but not limited to, injection and withdrawal rights) that differ from the applicable upstream pipeline storage service. The release shall terminate at the end of the then-current storage season pursuant to the applicable upstream pipeline rate schedule terms and conditions; provided, however, the Company may in its discretion release such capacity on a monthly basis.

Capacity released pursuant to this section shall be recallable by the Company only upon failure of the NGS to comply with the terms and conditions set forth herein or in connection with a buyback of gas by the Company as set forth in paragraph 2 of this rate schedule.

Assignment of Other Supplies

The Company reserves the right to assign or sell other gas supplies that are under contract with the Company and used to satisfy its Supplier of last resort obligation to Priority-One Customers. To the extent that a Priority-One Supplier receives an assignment of the Company's capacity it holds on the Equitrans System, the Company shall provide Priority-One suppliers with an option to purchase from the Company a pro-rata share of the firm gas supplies available to the Company under its gas supply agreement with EQT Energy, LLC. Such purchase shall also occur if the Company determines that, as a result of the Priority One Customer's migration from supply service provided by the Company to supply service provided by P-1 NGSSs, the amount of gas supplies under long term firm purchase contracts are in excess of the usage requirements of Supplier of last resort Customers currently served by the Company.

RATE P-1
PRIORITY ONE POOLING SERVICE**Assignment of Other Supplies (continued)**

Such gas shall be sold to the NGS as agent for the Customer of the NGS's Priority One Pool. The sale shall be structured at the actual purchase cost of the supplies associated with firm purchase contracts.

Supplies sold under this section shall be discontinued by the Company under the following conditions:

1. The Customer on whose behalf the supplies have been sold is no longer served by the NGS;
or
2. The NGS has failed to comply with terms and conditions set forth herein.

Determination of Assignment Quantities

Unless provided otherwise herein, assignments of Pennsylvania-produced and other supplies, upstream pipeline firm transportation capacity and upstream pipeline storage capacity shall be assigned on a *pro rata* basis in accordance with the supply portfolio held by the Company at the time of assignment to serve its Priority-One Customers; provided, however, the Company shall not be required to assign capacity that is de minimis in nature. The Company will endeavor to accommodate a Priority-One supplier's request for particular upstream pipeline capacity on a first-come first-served basis.

The Company will evaluate the capacity and supply assignments made to the NGS as agent for Customers of the NGS's Priority-One Pool monthly based on the methodology set forth above. The evaluation will include an assessment of whether the upstream pipeline storage capacity assignments are adequate to serve the needs of the Customers of the Pool Operator at that time. To the extent that the evaluation so indicates, revisions to the upstream pipeline storage and storage capacity assignments will be made effective with the summer period. To the extent that the winter evaluation so indicates, the Company may require the NGS to secure additional reliable natural gas commodity, capacity and delivery service to meet the needs of the NGS's Customers. In addition to the preceding, the Company will evaluate the capacity assignments made pursuant to this section from time to time to ensure adequate compliance with its provisions.

Capacity assigned to the NGS hereunder by the Company may be traded with other Priority-One NGSs as long as each NGS retains an aggregate amount determined by the Company to be necessary to satisfy the total demands of the NGS's Customers. Such trading may occur no more frequently than twice per calendar year unless otherwise agreed to by the Company. Any capacity trades must be reduced to writing and provided to the Company for final approval.

Any assignments made pursuant to this tariff are made subject to any order of the Commission. Should the Commission, or anybody authorized by law require a disallowance in the Company's rates that is directly attributable to the Company's assigning or transferring gas supplies to the NGS pursuant to these procedures, the NGS agrees to reimburse to the Company within 30 days of notification of any monies disallowed by the Commission or such other body that are directly attributable to the NGS. The Company shall provide such notification no later than thirty (30) days after a final order is entered by the Commission or other such body.

RATE P-1
PRIORITY ONE POOLING SERVICE

2. Nomination Procedures

Refer to Rule 11 of the Rules and Regulations.

3. Storage Gas Transfers**Storage Gas Sold by the Company**

- a. Storage gas transfers may be required by the Company under the following conditions:
 - i. The NGS is unable to attain the storage inventory level required by the upstream storage service as a result of Customers initially receiving service from the NGS after the commencement of the Summer Period; or
 - ii. The NGS is assigned upstream pipeline storage capacity during the Winter Period as a result of Customers initially receiving service from the NGS during the Winter Period.
- b. The maximum volume of storage gas transfers for the applicable month shall be determined as follows:
 - i. For assigned upstream pipeline storage capacity, the maximum storage gas transfer shall be the upstream pipeline storage capacity incrementally assigned for the month multiplied by the estimated beginning of the month percentage of the Company's upstream pipeline storage inventory level to the Company's upstream pipeline storage capacity.

Storage gas transfers shall not be allowed if in the Company's sole discretion it determines such transfers would be detrimental to the operation of the Company's system or its ability to meet Retail Sales Demand in a cost effective manner.

The storage gas transfer price each month shall be at the Company's estimated commodity cost of storage gas for the year, plus any applicable taxes. The storage gas transfer price shall be reconciled each calendar year to take into account the actual commodity cost of gas injected into storage net of withdrawals for the current year and, as applicable, the commodity cost of gas from previous years' LIFO inventory layers. The Company shall bill such additional costs as soon as practicable. With respect to storage gas transfers from upstream pipeline storage capacity, the NGS will pay an additional charge equal to the upstream pipeline storage capacity injection and storage fuel charges.

Storage Gas Purchased by the Company

In the event 1) the NGS's Priority-One Pooling Agreement is terminated or canceled or 2) the NGS is no longer serving Customers on whose behalf the storage capacity has been assigned and to the extent the Company in its sole judgment determines it operationally requires such storage capacity to serve the returning Customers, the Company shall have the right, but not the obligation to purchase up to the remaining storage gas in upstream pipeline storage inventories or up to the volumes in storage attributable to the NGS's load loss, respectively. The buyback rate shall be the lower of 1) Storage Gas Transfer Price or 2) the midpoint index price for gas delivered to Eastern Gas Transmission and Storage's Appalachia Eastern Gas South index as published on the effective date of the buyback plus firm transportation charges to bring the gas to the Company's system, including applicable fuel retainage.

RATE P-1
PRIORITY ONE POOLING SERVICE

3. Storage Gas Transfers (Cont.)

To the extent this provision is invoked and the NGS's storage gas in inventory is below the minimum inventory levels required by these procedures and the Company is required to purchase additional gas supplies on the open market, the NGS agrees to pay the Company an amount equal to the deficiency in volumes from the required inventory levels multiplied by the difference between the price the Company paid and the buyback rate.

4. Load Forecasting

The Company will provide the Pool Operator with a daily projection of the amount of gas to be delivered to the Company to satisfy the estimated daily consumption of all the Customers in the pool (Aggregate Daily Consumption Volume) at least two days in advance of when Pool Operators must deliver volumes to the Company. The Company may issue OFOs consistent with the terms of the Company's tariff and, as a result, may provide the Pool Operator with daily projections less than two days in advance.

In a format suitable to the Company, the Pool Operator will provide sufficient information about the Priority-One transportation Customers, whose natural gas requirements shall be supplied by the Pool, for the Company to identify them in the Company's billing system. In the event that those Customers shall vary during the term of the Priority One Agreement, Pool Operator shall provide an updated list of Customers to the Company as soon as reasonably possible.

Each of the Customers of Pool Operator's Priority-One Pool must have all of their natural gas consumption over the entire Customer Billing Cycle supplied by Priority-One Pool volumes nominated by Pool Operator. Seven business days prior to the first nomination period, the Company shall provide Pool Operator an initial listing of the end-use Customer accounts to be served by the Pool Operator's Priority-One Pool during the period to which the nominations apply and one week prior to the nomination period for each subsequent month, a listing with additions and deletions from the initial list.

Each Monday through Friday before 10:00 a.m., the Company will provide a projection of the Aggregate Daily Consumption Volume of the Customers of the Pool Operator's Priority-One Pool for the current and subsequent two days. During periods in which no Operational Flow Orders have been issued, the Company will use the following schedule to establish the Aggregate Daily Consumption Volume for which the Pool Operator will be held accountable:

<u>The Projection Provided On:</u>	<u>Will Be Used to Establish the Aggregate Daily Consumption Volume Accountability for the Following:</u>
Monday	Wednesday
Tuesday	Thursday
Wednesday	Friday
Thursday	Saturday
Friday	Sunday, Monday and Tuesday

- a. During periods in which an OFO is in effect, the Company shall establish the Aggregate Daily Consumption Volume no later than 10:00 a.m. of the same Day; or
- b. During periods when the mean average temperature is projected to be below 20 degrees Fahrenheit and the mean average temperature projection changes to be colder by at least 4 degrees Fahrenheit, the Company may establish the Aggregate Daily Consumption Volume for a particular day by giving 24 hour notice to the Pool Operator.

RATE P-1
PRIORITY ONE POOLING SERVICE

5. Daily Gas Deliveries and Balancing

The Pool Operator must acquire an adequate supply of natural gas (including any assigned volumes) of a quality acceptable to the Company, including allowances for any retention required by upstream pipelines and the Company, and arrange for the delivery of such gas supply to delivery points specified by the Company.

Any differences between the Aggregate Daily Consumption Volume and the Daily Available Volumes during periods in which no OFOs have been issued shall be subject to the following balancing charges:

Negative Daily Imbalance - The negative imbalance volume will be sold by the Company at the Midpoint price published in Platts, Gas Daily publication, under the heading Appalachia, Eastern South on the day the shortfall occurs multiplied by 120%. Volumes sold by the Company are subject to applicable taxes

Positive Daily Imbalance - The positive imbalance volume will be purchased by the Company at Midpoint price published in Platts, Gas Daily publication, under the heading Appalachia, Eastern South on the day the excess occurs multiplied by 85%.

In the event Pool Operator fails to provide cumulative Daily Available Volumes plus pool-to-pool transferred volumes equal to at least 75% of cumulative daily pool requirements over two or more consecutive months, the Company may, at its sole discretion in accordance with reasonable and standard industry practice, recall or otherwise withdraw any capacity rights assigned to the Pool Operator upon five (5) days written notice to the Pool Operator and terminate the Agreement upon ten (10) days written notice to Pool Operator.

In the event the Pool Operator fails to provide Daily Available Volumes plus pool-to-pool transferred volumes equal to at least 50% of daily pool requirements for five or more days in each of two consecutive month the Company may, at its sole discretion in accordance with reasonable and standard industry practice, recall or otherwise withdraw any capacity rights assigned to the Pool Operator upon five (5) days written notice to the Pool Operator and terminate the Agreement upon ten (10) days written notice to Pool Operator.

6. Reconciliation of Monthly Volumes

The difference between aggregate monthly consumption volume and the sum of the aggregate daily consumption volume, as adjusted for any prior month billing corrections, shall be reconciled monthly. The difference shall be reconciled in the next calendar month following its determination (the "Adjustment Month") by adjusting the NGS's aggregate daily consumption volume on each day in the Adjustment Month by an amount equal to the difference divided by the number of days in the Adjustment Month or by other methods as made available by the Company, including, but not limited to, selling or purchasing additional supplies, transferring gas in storage, or pool-to-pool transfer.

RATE NP-1
NON-PRIORITY ONE POOLING SERVICE

AVAILABILITY

Service under this rate schedule is available to any Non-Priority One Pool Operator who has entered into a Non-Priority One Pooling Agreement with the Company and demonstrates to the Company's satisfaction that it has met the Company's creditworthiness standards and bonding requirements. Customers must assign their rights provided under the applicable transportation rate schedules to said Pool Operators.

Unless otherwise agreed to by the Company, an NGS that operates both a P1 and NP-1 pool must serve its P1 Customers from its P1 pool and serve its NP-1 Customers from its NP-1 pool. If the Non-Priority One Pool Operator supplies Priority One Customers with a total annual consumption greater than 30,000 mcf and does not operate a P1 pool, then the Non-Priority One Pool Operator shall establish a separate Priority One Pool for these Customers or eliminate sufficient Priority One Customers from the Non-Priority One Pool to reduce the total annual consumption by Priority One Customers to an amount less than 30,000 mcf.

RULES AND CONDITIONS**1. Scheduling of Service**

All transportation volumes received for Pool Operator's account at transportation receipt points shall be nominated in advance according to the procedures set forth below. Pool Operators may not nominate volumes in excess of the total maximum daily volumes of its Customers as determined by the Company or as set forth in a Customer's transportation contract with the Company, times the number of days in the month. The Company may issue Operational Flow Orders consistent with the terms of the Company's tariff.

2. AVC Capacity

Consistent with FERC's rules and regulations for capacity releases under state retail choice programs, upstream pipeline firm transportation capacity held by the Company on the Allegheny Valley Connector ("AVC") pipeline system may be assigned to the NGS as agent for the Customers of the NGS's Non-Priority One Pool. The assignment shall be structured as a zero cost release of capacity, provided, however, that the NGS should be responsible for paying all usage based pipeline charges. Assigned capacity shall be subject to recall to at the Company's discretion.

RATE NP-1
NON-PRIORITY ONE POOLING SERVICE

4. Supply Option

The Company may make available gas supplies to Non-Priority One pools upon request. Supplies sold under this section may be recalled by the Company upon 24-hour notice.

5. Nomination Procedures

Refer to Section 11 of the Rules and Regulations.

6. Terms and Conditions for Non-Priority One Pool Access to Balancing Volumes

AVAILABILITY

The Company will make available for purchase by Non-Priority One pool volumes used by the Company to provide balancing services for Non-Priority One Customers.

The Company will purchase balancing volumes based on the Summer Period schedule set forth below. Such volumes shall be purchased by the Company at the first of the month Eastern Transmission and Storage ("EGTS") Appalachia Index price as published in *Inside FERC's Gas Market Report*. The Company will sell balancing volumes on the Winter Period schedule set forth below. Such monthly volumes shall be sold to Non-Priority One pools at a price equal to the sum of:

1. Weighted average cost of balancing volumes purchased during the summer season;
2. The Company's carrying costs associated with balancing volumes purchased by the Company to be sold to Non-Priority One pools. The rate used to calculate the carrying costs shall be based on the Company's actual short-term debt cost rate; and
3. Any applicable interstate pipeline volumetric charges and fuel associated with the delivery of any balancing volumes to the Company's system.

RATE NP-1

NON-PRIORITY ONE POOLING SERVICE**6. Terms and Conditions for Non-Priority One Pool Access to Balancing Volumes (continued)**

All of the revenues generated by the sale of balancing gas to the Non-Priority One pools shall be credited to Customers through the 1307(f) mechanism.

The amount of balancing volumes to be made available for purchase by each Non-Priority One pool will be determined based on the percentage of projected balancing fee revenues served by each Non-Priority One pool to total projected balancing fee revenues served by all Non-Priority One pools, based on January business of each year. The Company will inform each Non-Priority One pool of its allocation of balancing volumes available for purchase no later than nine business days before the end of March and each Non-Priority One pool must inform the Company of the amount of balancing volumes to be purchased, up to 100 percent of its allocated volumes, no later than six business days before the end of March. Any balancing volumes not accepted for purchase by a Non-Priority One pool shall be utilized by the Company and will not be made available to other Non-Priority One pools throughout the winter season. The amount of balancing volumes accepted by a Non-Priority One pool shall be final for the ensuing winter period and shall fix the volume of balancing to be purchased and which the Non-Priority One pool is obligated to utilize throughout the entire winter period.

SUMMER PERIOD PURCHASE

Balancing volumes will be purchased by the Company according to the following schedule, with daily purchase volumes in a given month determined by dividing the monthly amount by the number of days in the month:

April and October -	1/12 th of allocated balancing volumes
May – September -	1/6 th of allocated balancing volumes

WINTER PERIOD SALE

Balancing volumes shall be sold by the Company according to the following schedule, with daily volumes in a given month determined by dividing the monthly amount by the number of days in the month:

November -	9 percent of allocated balancing volumes
December -	17 percent of allocated balancing volumes
January -	27 percent of allocated balancing volumes
February -	27 percent of allocated balancing volumes
March -	20 percent of allocated balancing volumes

OTHER PROVISIONS**Annual Level of Balancing Volumes to be Made Available for Purchase**

On an ongoing annual basis, the Company shall review the total level of balancing volumes made available for sale to Non-Priority One pools and, based on changes in the total annual volumes served by all Non-Priority One pools, may revise from year to year the total level of available balancing volumes. Any proposed revisions to the total level of balancing volumes shall be reflected in the Company's annual 1307(f) filings and will be determined by multiplying a factor of 46.7% times forecasted January Non-Priority One transportation usage. The Company shall, for a period of three years, notify active Non-Priority One suppliers of any proposed revision to the total level of balancing volumes at the time of any annual 1307(f) filing containing such a revision.

RATE NP-1
NON-PRIORITY ONE POOLING SERVICE

6. Terms and Conditions for Non-Priority One Pool Access to Balancing Volumes (continued)

Calendar Month Pool Supply

Balancing gas volumes purchased will be considered as part of the Monthly Available Volumes during periods in which no OFOs have been issued and will have first priority.

All Supplier Tariff provisions shall apply to Non-Priority One pool access to balancing volumes unless otherwise modified herein.

7. Daily Load Forecasting and Balancing

The Company will provide the Pool Operator with a daily projection of the amount of gas to be delivered to the Company to satisfy the estimated daily consumption of all the Customers in the pool (Aggregate Daily Consumption Volume) at least 7 days in advance of the start of the month. This projection will be based on estimated monthly usage divided by the number of days within the month. The Aggregate Daily Consumption Volume will remain the same throughout the month and any difference in actual monthly usage will be reflected in the calculation of the following month's Aggregate Daily Consumption Volume. The Company reserves the right to adjust the Aggregate Daily Consumption Volume due to weather or large known consumption variations.

Any difference between the Customers' Aggregate Daily Consumption Volume and the Daily Available Volumes, during periods in which no OFOs have been issued, shall be subject to the following balancing charges:

Negative Daily Imbalance - The negative imbalance volume will be sold by the Company at the Midpoint price published in Platts, Gas Daily publication, under the heading Appalachia, Eastern Gas South on the day the shortfall occurs multiplied by 120%. Volumes sold by the Company are subject to applicable taxes.

Positive Daily Imbalance - The positive imbalance volume will be purchased by the Company at Midpoint price published in Platts, Gas Daily publication, under the heading Appalachia, Eastern Gas South on the day the excess occurs multiplied by 85%.

In the event Pool Operator fails to provide cumulative Daily Available Volumes plus pool-to-pool transferred volumes equal to at least 75% of cumulative daily pool requirements over two or more consecutive months, the Company may, at its sole discretion, in accordance with reasonable and standard industry practice, terminate the Pooling Agreement.

The difference between Calendar Month Pool Supply and Calendar Month Pool Sendout, as adjusted for any prior month billing corrections, may be reconciled monthly. The difference shall be reconciled in the next calendar month following its determination (the "Adjustment Month") by adjusting the NGS's Daily Available Volume on each day in the Adjustment Month by an amount equal to the difference divided by the number of days in the Adjustment Month or by other methods made available by the Company including, but not limited to, the selling or purchasing additional supplies, transferring gas in storage, or pool-to-pool transfer.

NON-PRIORITY ONE POOLING SERVICE (cont.)

8. Local Gas Volumes

Refer to Rule11, part (c), for nomination and reconciliation details.

RATE LGA
LOCAL GAS AGGREGATION SERVICE

AVAILABILITY

Service under this rate schedule is available to any Aggregator who has entered into a Local Gas Aggregation Agreement with the Company and demonstrates to the Company's satisfaction that it has met the Company's creditworthiness standards and bonding requirements.

The locally produced gas nominated out of the Local Gas Aggregation Pool will be balanced monthly with actual production delivered into the Company's system.

RULES AND CONDITIONS**1. Points of Receipt**

The points of receipt for local gas aggregation shall be those metering stations identified by the Aggregator in its Measurement Operating Agreement with the Company or any other designated point where gas is delivered into the Company's system. The Aggregator will pay for any investment costs required to receive gas into the Company's system at agreed-upon transportation gas receipt points. The Company will own and maintain each natural gas connection's tapping tee or pipe and valve.

2. Nomination of Aggregated Production

Refer to Rule 11 of the Rules and Regulations.

3. Aggregation Balancing

Volumes nominated into a Local Gas Aggregation Pool shall equal the volumes delivered out of the Local Gas Aggregation Pool. Aggregators will not be permitted to deliver more gas out of the pool than is nominated into the pool in any given month. If daily volumes nominated into a Local Gas Aggregation Pool are greater than the daily volumes delivered out of the Local Gas Aggregation Pool, those volumes shall be sold to the Company at the Midpoint price published in Platts, Gas Daily publication, under the heading Appalachia, Eastern South on the day the excess occurs multiplied by 85%.

4. Procedures When a Local Gas Aggregator Exits the System

Refer to Rule 11, part (c).

RATE SBS
SUPPLIER BILLING SERVICE**AVAILABILITY**

Service under this rate schedule is available to the NGS which receives service under Rate P-1 or Rate NP-1 and elects to have the Company bill Customers for natural gas supplied by the NGS.

RULES AND CONDITIONS**1. Limitations**

The Company shall provide service under this rate schedule provided that its billing systems have the capacity and capability to bill the rate plans offered by the NGS. The Company shall maintain a limited amount of billing system space and accordingly, shall offer only a limited number of price plans per NGS. The Company shall not be required to make programming changes to accommodate the NGS's rate structure.

2. Notifications

Prior to the NGS commencing marketing, the NGS shall provide a written copy of its rate structure to the Company. All rate information received by the Company shall be confidential.

The NGS shall be notified within ten (10) business days after the Company receives a written copy of the NGS's rate structure if such rate structure can (or cannot) be accommodated by the Company's billing system. The NGS shall not commence marketing until it receives a positive affirmation that its rate structure can be accommodated by the Company.

The NGS must provide fifteen (15) day's notice to the Company of any rate changes, which changes shall be subject to the Company's approval based on the Company's ability to accommodate such changes in its programming. Approved rate changes shall be effective on the Customer's next billing date.

3. Bill Content

The bill sent to the Customer shall be provided under the following conditions:

- a. The NGS's name, phone number, business address and internet address shall appear on the bill so the NGS can answer any Customer questions regarding commodity charges.
- b. The billing envelope shall not provide space for inserts from the NGS. The bill shall not include messages from the NGS.
- c. The bill shall contain the NGS's Commodity charges. The Company shall not be required to bill any charges other than gas commodity charges.
- d. The Company will house, bill and display sales tax on the commodity and remit sales tax to the state. The NGS appoints the Company as its agent for the limited purpose of collecting and remitting the NGS's sales tax, and further agrees to indemnify and hold the Company harmless for any claims, suits and/or damages that arise due to the Company acting as the NGS's agent in collecting and remitting such taxes.
- e. The Company shall offer a separate billing option for residential Customers to equalize monthly payments.

SUPPLIER BILLING SERVICE

4. Purchase of Receivables

NGSs that receive service under this rate schedule may elect to have the Company purchase its accounts receivables. The NGS's option to participate or not participate in the Purchase of Receivables (POR) program is limited to once per year. If an existing NGS elects to participate in the POR program, the Company will not purchase accounts receivable balances that existed prior to the NGS's election to participate in the POR program.

Purchase of Receivables Option

The following operating rules will apply to any NGS electing to participate in the POR program:

1. The POR program is only available to NGSs that operate a P-1 or NP-1 pool. The Company shall purchase receivables for all Customers in a participating pool. All Customers served from a P-1 pool are eligible to have their receivables purchased by the Company. If an NP-1 pool opts to participate in the POR program, the Company shall purchase receivables for only residential and small business Customers consuming less than 1,000 Mcf annually. NGSs serving NP-1 Customers and participating in the POR program must operate a separate NP-1 pool for residential and small business Customers (POR pool) and a separate NP-1 pool for all other Customers;
2. The NGS must include all of its accounts receivable related to commodity sales in its P-1 pool or its NP-1 POR pool (Refer to Availability under Rate P-1 and Rate NP-1);
3. Only receivables associated with basic gas supply will be eligible for purchase by the Company. Basic gas supply does not include a non-gas supply product, carbon-neutral products not tied to the actual provision of natural gas to Customers or security deposits assessed by a natural gas supplier. For residential accounts, basic gas supply shall also not include early contract cancellation fees or late fees;
4. In order to participate in the POR program, the NGS must use consolidated billing services under this rate schedule. Should the NGSs participating in the POR program wish to offer products that are bundled with non-basic services, or where the Company's billing service cannot accommodate the NGS's charge for basic supply, the NGS may issue a separate bill for such service or product for that Customer. NGS separately billed items will not be included in the POR program;
5. The Company will purchase NGS receivables at a discount rate equal to the write-off factor used to derive the Merchant Function Charge. The discount rate for residential Customer receivables is 2.20%. The discount rate for commercial and industrial Customer receivables is 0.332%. The discount rate applicable to each POR pool (Pool Discount Rate) shall be established by the Company and shall be based on the weighted average of the class specific accounts receivables and the class specific discount rates stated above. The Company shall have the right to review and adjust the Pool Discount Rate on a monthly basis to reflect the actual mix of Customers served by the pool;
6. An administrative adder of 0.0213% will also be applicable to purchased receivables. The administrative adder will be eliminated once actual costs of establishing the POR program are recovered;
7. The Company shall terminate for the full amount of purchased receivables and require full payment for reconnection in accordance with the service termination provisions of Chapter 14 of the PA Public Utility Code and Chapter 56 of the Commission's regulations;
8. The Company shall inform all eligible Customers by separate bill insert of the policy for termination of service and that service may be terminated for failure to pay NGS supply charges. Further, the enrollment letter sent to Customers selecting a NGS shall state that service may be terminated for failure to pay NGS supply charges;
9. The NGS must confirm to the Company that their Customer terms and conditions are appropriately revised to reflect their collection rights; and

RATE SBS
SUPPLIER BILLING SERVICE

Purchase of Receivables (continued)

10. The NGS will not deny service to residential Customers whose accounts are included in POR for credit-related reasons and will not ask residential Customers for deposits separate from any deposit required by the Company pursuant to Commission regulations.

Non-Purchase of Receivables Option

The Company will remit to the NGS on a monthly basis all amounts actually paid to the Company by the Customer relating to the charges billed to the Customer on behalf of the NGS, net of amounts due to the Company from the NGS. The amounts remitted to the NGS shall also conform to requirements on the Application of Partial Payments – Rule 5.

5. Application of Partial Payments

The Company will apply partial payments in accordance with Commission guidelines. The following order for the application of partial payments shall apply to all residential Customers and for other Customers whose gas supply contract does not specify the application of partial payments:

- a. Payment agreement for pre-existing balance;
- b. Current company charges;
- c. NGS charges;
- d. Non-basic service charges; and
- e. Hardship energy fund contribution.

RATE TABLE

Billing Fee: \$0.15 billing charge per Customer per month.

To the extent the NGS has provided the Company with inaccurate or erroneous information which requires an adjustment to Customer's bills, the NGS agrees to pay the Company \$2.00 per bill for bill credits and \$4.00 per bill for any Customer's bill that must be canceled and rebilled. The Company may assess a nominal fee to a NGS for reproduction copies of any daily or monthly file previously provided by the Company.
